Infrastructure Performance Monitoring

- App Server Monitoring
  - No image available
  - Gaining visibility into an SAP Basis environment
  - Monitoring log volume trends

- Database Server Monitoring
  - No image available
  - Analyzing wire data from databases

- Network Monitoring
  - No image available
  - Managing Cisco IOS devices

- Physical Asset Monitoring
  - No image available
  - Managing printers in a Windows environment

- Server and Operating System Monitoring
  - No image available
  - Maintaining *nix systems
  - Maintaining Microsoft Windows systems
  - Managing *nix system user account behavior
  - Managing O365 workloads
  - Measuring memory utilization by host
  - Monitoring Windows account access

- Storage Monitoring
  - No image available
  - Managing Dell Isilon network attached storage
Measuring storage I/O latency
  ◦ Measuring storage speed I/O utilization by host

• Virtualization Monitoring
  No image available
  ◦ Monitoring VMware virtualization infrastructure

• Web Server Monitoring
  No image available
  ◦ Identifying slowly loading web pages
  ◦ Identifying web users by country
  ◦ Managing web server performance
