Working With Intelligence Sources - Splunk Intelligence Management (TruSTAR)

In this video, you will learn about the different types of intelligence sources available in the Intelligence Marketplace, how to subscribe to them, and how intelligence is downloaded to Splunk Intelligence Management.

Additional resources

These additional Splunk resources might help you understand and implement this use case:

- **Support Docs:**
  - Observables supported by Splunk Intelligence Management (TruSTAR)
  - Open source intelligence tech specs
  - List of premium intelligence sources and specs
  - Intelligence Community Partners

- **Register to premium sources:**
  - AbuseIPDB
  - AlienVault OTX
  - HybridAnalysis
  - Shodan
  - URLscan
  - VirusTotal
  - IBM X-Force

- **Splunk blogs**
  - How to pick a Threat Intelligence provider (kind of...)
