Detecting unencrypted web communications

Applicability

- Product: Splunk Enterprise or Splunk Cloud
- Feature: Search
- Function: Web communications monitoring

To optimize the search shown below, you should specify an index.

Problem

Unencrypted web communications can leave you vulnerable to a data breach or expose sensitive information. You want to find any such communications so you can correct them.
Solution

Media, iframe, embed and object tags are not supported inside of a PDF.

Additional resources

For more great content from the Splunk Education and Training team, check out Splunk How-To on YouTube or sign up for a course. In addition, these Splunk resources might help you understand and implement this search:

- Data Descriptor: Firewall data
- Data Descriptor: Application data
